What to know about Beam's dental network

Ready to visit the dentist but have questions about our network of dental providers? We're here to help!

Looking for an in-network dental provider?

We have over 400,000 providers* in our network! Find one quickly with these steps:

1. Visit dentist.beam.dental.
2. Enter your city name, zip code, or dental provider's name.
Pro tip: If you use a city or zip code, you can look for providers within a certain distance from you!
3. Choose which kind of specialist you need (dentist, orthodontist, etc.).
4. Click the icons on the map to get more information on the provider.
5. Call and schedule your appointment.

What if your dentist has never heard of Beam?

Although Beam has grown fast and has a large, nationwide network, this may happen from time to time! In this case, you can:

Verify coverage by sending your digital insurance card to the provider via the Beam app.

1. Click the "Insurance" tab and then "Insurance Card."
2. Click "Share dental card."
3. Send your card via text, email, or another preferred communication method.

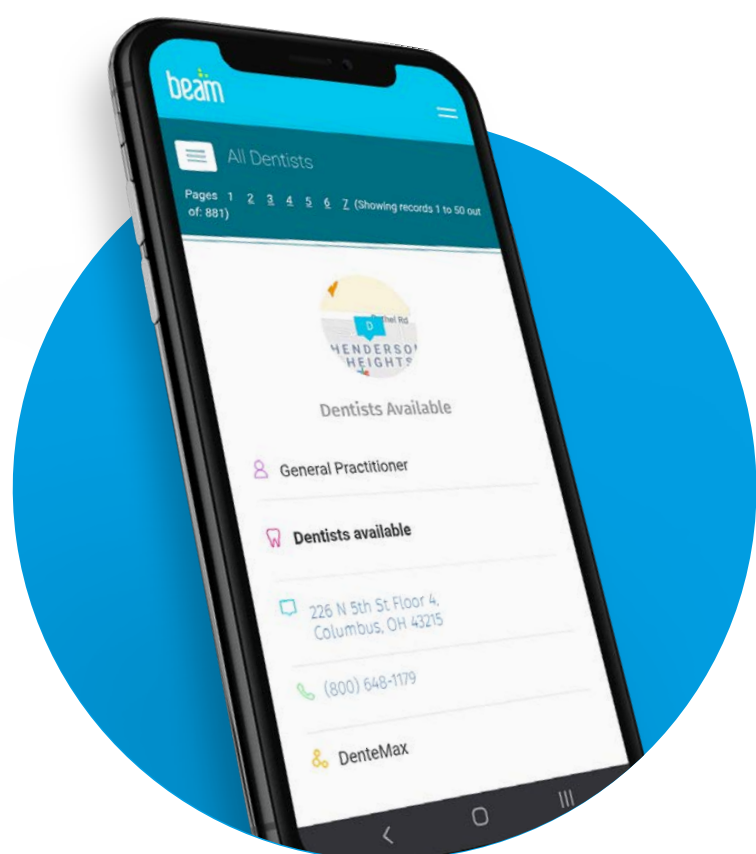

Have the provider reach out to us.

Phone: (800) 648-1179
Email: support@beam.dental
Chat: beam.dental

What if your provider is out-of-network?

Fortunately, most Beam plans have excellent coverage for out-of-network visits. Consult with your HR representative to learn more or reach out to Beam directly to understand your out-of-network benefits. If you'd like a provider added to our network, you can pass along their contact information or have them get in touch with us.
