ease

Ease Integration for ADP Workforce Now® Overview

The Ease integration for ADP Workforce Now® helps to make benefits and payroll easy.

Simple Setup

When employers set up new hires in ADP Workforce Now®, the integration will automatically create new employees in Ease.

Payroll & Benefits In Sync

It is easy to maintain accurate employee and payroll data. Full-file demographic, enrollment, and change data will automatically sync overnight from ADP® to Ease. Deduction data will also sync daily from Ease to ADP once the data has been processed under "To-Do" in your Ease account. Need a payroll update even sooner? HR admins can run the changes at any time with the push of a button.

Open Enrollment & Benefit Changes

Deductions from open enrollment or any other benefit changes are automatically sent to ADP throughout the year, no matter the month. Employees can add dependents and make other changes to their plan and see the change in the appropriate pay period.

Pricing

- $1.50 PEPM
- There will be a **$500 setup fee** for each employer group.

How To Activate

If your group already uses ADP Workforce Now®, visit ADP Marketplace and subscribe to Ease. If the group is interested in switching, contact ADP® sales at **800-225-5237**.
