

Offer Your Employees Personalized Life Insurance

Work with Ease and your broker to offer your employees term life insurance from Ethos, a popular insurance company that uses predictive analytics to design personalized policies.

Simple to Offer, Easy to Enroll

1. Employees will be offered Ethos term life insurance during the benefits enrollment process in Ease.
2. If they wish to elect coverage, they'll be asked to answer one health question before being taken to Ethos to view personalized policies.
3. Once in Ethos, they can elect their preferred policy and complete an application.

Personalized, Affordable & Portable

Together, Ease & Ethos will help you land new hires and keep your best employees by allowing them to choose the coverage amount and term lengths that work best for their lifestyle.

Unlike most voluntary life insurance options that are attached to a group plan, Ethos plans are priced individually, resulting in higher amounts of coverage when compared to a plan with Guaranteed Issue amounts. Employees enroll in a policy once, and the same policy will follow them no matter what company they work for in 5, 10, or 15 years.
