

ease

Ease helps you engage employees and simplify traditionally complicated, paper-based benefits enrollment. Make it easy for your employees to add Qualifying Life Events (QLE) in Ease and get your team familiar with the Ease experience by sharing the following helpful videos.

Qualifying Life Events (QLEs)

Ease makes it simple for your employees to add a QLE. After employees log in to Ease, all they need to do is click "Change my Benefits." From here, they can indicate the qualifying life event and submit documentation of proof, such as a marriage or birth certificate. From there, you and/or your insurance broker can track changes to help ensure benefits and other employee details are up-to-date. Watch a short, 3-minute video reviewing how an employee can create a QLE and make changes to benefit elections outside of new hire or open enrollment periods.

Introduce Ease to Your Employees

Enrolling in benefits can be a complicated task for new employees—even more so if they're working remotely. Show your employees how Ease streamlines the benefits enrollment process with this video.
